

CLINICAL DEMENTIA CONFERENCE

Part of

THE AUSTRALIAN DEMENTIA SUMMIT

Translating Breakthrough Science
into Best-Practice Care.

2025
11-12 NOVEMBER
Swissôtel Sydney

FEATURED SPEAKERS

Professor John O'Brien
Head of Old Age Psychiatry Research
Group & Honorary Consultant
University Of Cambridge

**Scientia Professor
Perminder Sachdev AM**
Co-Director
Centre for Healthy Brain Ageing
(CHeBA), UNSW Sydney

Professor Jacqueline Close AM
Consultant Geriatrician
Prince of Wales Hospital

Dr Claire Shepherd
Director
Sydney Brain Bank, Neuroscience
Research Australia (NeuRA)

Professor Lee-Fay Low
Professor in Ageing and Health
Faculty of Medicine and Health,
University of Sydney

**Professor
Nicola Lautenschlager**
Professor of Old Age Psychiatry &
Deputy Dean, People, Community and
Partnerships, Faculty of Medicine,
Dentistry and Health Sciences
University of Melbourne

EVENT OVERVIEW

The landscape of dementia care is undergoing its most significant transformation in a generation. This is why now, your ability to stay ahead of the curve is more critical than ever.

The arrival of new and emerging treatment options—both pharmacological and non-pharmacological—is set to fundamentally change how you manage your patients. This pivotal event will equip you to navigate this new terrain. We will explore evolving diagnostic standards, providing key updates on biomarkers and early detection to ensure your practice is aligned with the latest evidence.

Crucially, we will deepen your understanding of how, the pathologies of dementia and its sub-types of comorbidities and like delirium impact disease progression. You will gain practical strategies for managing the whole person, not just the disease.

Delivering practical insights and tangible tools, this event brings together Australia's leading clinicians, headlined by an international keynote from world-renowned expert **Professor John O'Brien** of the **University of Cambridge**. Join your peers to enhance your diagnosis, treatment, and management of dementia, and secure your place at the forefront of clinical practice.

SCIENTIFIC COMMITTEE

Our program is developed in close collaboration with expert dementia clinicians who form our scientific committee. Their guidance shapes the agenda, identifies key topics and speakers, and ensures the content reflects the evolving realities of dementia care in clinical settings.

In the lead-up to the event, board members contribute critical insights, help frame key discussions and guide the forum's direction—ensuring it is practical, evidence-informed, and grounded in cutting-edge dementia research.

Dr. Henry Brodaty

Scientia Professor of Ageing and Mental Health &
Co-Director of the Centre for Healthy Brain Ageing
University of New South Wales

Dr. Elie Matar

Consultant Neurologist & Sleep Physician
University of Sydney

Dr. Paul Yates

Clinical Associate Professor
University of Melbourne

REASONS TO ATTEND

Refine Your Diagnostic Acumen

Gain the latest insights into evolving diagnostic standards, integrating new blood-based and imaging biomarkers, genetic profiling, and subtle early indicators to enable more precise and timely diagnoses.

A/Professor Michelle Lupton, Senior Research Officer, **QIMR Berghofer Medical Research Institute**

Dr Emma Devenney, Neurologist & NHMRC early career fellow, **NeuRA**

Enhance Your Collaborative Practice

Gain proven strategies for effective interdisciplinary teamwork. Learn to foster better communication and shared care models between neurology, psychiatry, primary care, and allied health to deliver truly integrated, person-centred outcomes.

Dr. Lee-Fay Low, Professor in Ageing and Health, **The University of Sydney**

Master the Management of Complex Comorbidities

Deepen your understanding of how comorbidities like frailty and delirium impact dementia progression. Learn proven strategies for managing the whole person and mitigating the associated side effects of treatment.

Professor Andrew Teodorczuk, Professor, Faculty of Health, **The University of Queensland**

Professor Jacqueline Close AM, Orthogeriatrics Consultant, **Prince of Wales Hospital**

Prepare for the Next Wave of Treatment

Explore the real-world implications of emerging pharmacological breakthroughs, including a practical assessment of Donanemab. Balance this with a critical review of effective, evidence-based non-pharmacological interventions for holistic patient care.

A/Prof Raymond Schwartz, Neurologist, **Southern Neurology**

Learn Directly from Global Leaders

Hear directly from an unparalleled faculty of Australian experts, headlined by a special international keynote from Professor John O'Brien, a world-renowned expert from the University of Cambridge.

Professor John O'Brien, Professor of Old Age Psychiatry, **Department of Psychiatry, University of Cambridge** 

WHO SHOULD ATTEND?

This event is designed for clinicians and healthcare professionals who are committed to delivering the highest standard of dementia care. If your role involves the diagnosis, management, or support of people living with dementia, this is a must-attend event for you.

Clinical Leadership & Specialist Consultants:

- Neurologists
- Geriatricians
- Old Age Psychiatrists
- Consultant Physicians

Doctors & General Practitioners:

- General Practitioners (GPs)
- Specialty Doctors & Associate Specialists
- Registrars & Clinical Fellows

Allied Health & Mental Health Professionals:

- Clinical & Neuropsychologists
- Senior Occupational Therapists
- Senior Specialist Speech & Language Therapists
- Clinical Pharmacists

Also Attending:

- Health Service & Aged Care Leadership
- Researchers & Academics
- Health Service Leadership (inc. Clinical Directors, CEOs, & Service Managers)
- Government and Policy Advisors

OUR EXPERT SPEAKERS

Professor John O'Brien
Head of Old Age Psychiatry
Research Group &
Honorary Consultant
University Of Cambridge

**Scientia Professor
Perminder Sachdev AM**
Co-Director
Centre for Healthy Brain
Ageing (CHeBA), UNSW Sydney

Professor Jacqueline Close AM
Consultant Geriatrician
Prince of Wales Hospital

Dr Claire Shepherd
Director
Sydney Brain Bank, Neuroscience
Research Australia (NeuRA)

Professor Lee-Fay Low
Professor in Ageing and Health
Faculty of Medicine and Health,
University of Sydney

Professor Nicola Lautenschlager
Professor of Old Age Psychiatry &
Deputy Dean, People, Community and
Partnerships, Faculty of Medicine,
Dentistry and Health Sciences
University of Melbourne

Professor Ralph Martins AO
Foundation Chair in Aging and
Alzheimer's Disease
Edith Cowan University

**Conjoint Professor
Peter W. Schofield**
School of Medicine and Public Health
University of Newcastle and Hunter
New England Local Health District

Dr Benjamin Goudey
Technical Lead
Australian BioCommons

Dr Eddy Roccati
Research Fellow
Wicking Dementia Research and
Education Centre,
University of Tasmania

A/Prof Raymond Schwartz
Neurologist
Southern Neurology

**Scientia Professor
Henry Brodaty AO**
Co-Director
Centre for Healthy Brain Ageing
(CHeBA), UNSW Sydney

Dr Paul Yates
Clinical Associate Professor,
Department of Medicine
University of Melbourne

**Professor
Andrew Teodorczuk**
Professor, Faculty of Health
The University of Queensland

Dr Emma Devenney
Neurologist & NHMRC Early
Career Fellow
Neuroscience Research
Australia (NeuRA)

**Associate Professor
Michelle Lupton**
Head of the Neurogenetics Group
QIMR Berghofer Medical
Research Institute

Scientia Professor Kaarin Anstey
Director
UNSW Ageing Futures Institute &
Senior Principal Research Scientist,
NeuRA

Professor Adam Vogel
Professor and Director
Centre for Neuroscience of Speech,
The University of Melbourne

Dr Helen Macpherson
Senior Research Fellow
Institute for Physical Activity and
Nutrition (IPAN), Deakin University

Dr Wei Qi Koh
Lecturer in Occupational Therapy
The University of Queensland

Dr Elie Matar
Consultant Neurologist &
Sleep Physician
Brain and Mind Centre,
University of Sydney

Dr Craig Sinclair
Senior Research Fellow,
School of Psychology
UNSW Sydney & Conjoint, NeuRA

**Associate Professor
Stephanie Harrison**
Associate Professor of Health
Services and Epidemiology
Flinders University

Dr Azadeh Feizpour
Senior Research Fellow
The Florey Institute of Neuroscience
and Mental Health

Professor Mathew Summers
Discipline Lead, Psychology
The University of the
Sunshine Coast

Cathy Strachan
Dementia & Palliative Care CNC
Whiddon

Katrina Crump
Clinical Nurse Consultant
(Dementia and gerontology)
Uniting

DAY ONE | TUESDAY, 11 NOVEMBER 2025

8:00 Registration

8:45 Welcome to Country

9:00 Introduction and Purpose Overview
Chairperson: **Dr. Henry Brodaty**, Scientia Professor of Ageing and Mental Health & Co-Director of the Centre for Healthy Brain Ageing, **University of New South Wales**

INSIGHTS ON THE MODERN LANDSCAPE OF DEMENTIA

9:10 International keynote: Lewy body dementia - an update on our understanding

- Gain insight into the latest research on Lewy body dementia, and how this can directly lead to improved clinical care
- Understanding how its distinct clinical features can be assessed in clinical practice and how it differs from other neurodegenerative conditions
- Explore best practices for diagnosis and management, focusing on the management of key symptoms to optimise quality of life through tailored care approaches.

Professor John O'Brien, Head of Old Age Psychiatry Research Group & Honorary Consultant, **University of Cambridge** 

9:40 Panel: Success Factors for Interdisciplinary Collaboration in Dementia Care

- Care encompasses medical management, psychosocial support, and assistance with daily activities, requiring coordinated efforts among healthcare providers, caregivers, and community resources
- Navigate the interplay of cognitive, and behavioural symptoms, fostering collaboration between neurology, psychiatry, and general practice.
- Practical strategies for adapting assessment tools for diverse communities and overcoming stigmas for person centered care.

Chair: Dr. Henry Brodaty, Scientia Professor of Ageing and Mental Health & Co-Director of the Centre for Healthy Brain Ageing, **University of New South Wales**
Dr. Perminder Sachdev, Professor of Neuropsychiatry, **UNSW**
Dr. Lee-Fay Low, Professor in Ageing and Health, **The University of Sydney**
Katrina Crump, Clinical Nurse Consultant (Dementia and Gerontology), **Uniting**

10:30 Morning Tea & Coffee

DECODING THE DIAGNOSIS: ADVANCED TOOLS AND EARLY CLUES

11:00 Understanding Associations in the Genetics of Neurodegeneration for Tailored Approaches

- Discover how genetic insights are paving the way for personalised treatments tailored to an individual's genetic profile, improving therapeutic outcomes.
- Neurophysiological approaches to biomarkers in dementia

A/Professor Michelle Lupton, Senior Research Officer, **QIMR Berghofer Medical Research Institute**

11:30 Practical Therapeutics, Biomarkers and Diagnostics

- Update on biomarkers of neurodegeneration in frontotemporal dementia and the potential of specific protein markers to enable more precise, pathology-specific diagnoses
- Utility of these biomarkers in distinguishing FTD from other neurodegenerative and psychiatric conditions.

Dr Emma Devenney, Neurologist & NHMRC early career fellow, **NeuRA**

12:00 Clues for Neurodegeneration Through Speech Pathologies

- Techniques to detect subtle changes in speech, such as reduced complexity and slower speech rate, which may serve as early indicators of cognitive decline
- Effective and accessible supplementing traditional neuropsychological tests and aiding in the diagnosis of complex dementia presentations.

Dr. Adam Vogel, Centre for Neuroscience of Speech, **The University of Melbourne**

12:30 Understanding Dementia Resilience in Clinical Management and Early Detection

- Learn about individuals that exhibit cognitive resilience and factors contributing to this resilience highlighting the importance of lifelong cognitive stimulation.
- Learn how screening tools can detect the earliest signs of cognitive change.
- Apply these concepts to manage complex clinical cases, including those with comorbidities like Traumatic Brain Injury, to better inform patient prognosis and care.

Dr. Peter W. Schofield, Conjoint Professor School of Medicine and Public Health, **University of Newcastle and Hunter New England LHD**

1:00 Lunch

THE PREVENTION IMPERATIVE & PERSONALISED STRATEGIES FOR PRIMARY CARE

1:50 Panel: Onset Prevention and Treatment Strategies; Diagnosis and Staging of Alzheimer's Disease

- The adoption of fluid biomarker testing in primary care could improve early diagnosis and staging of Alzheimer's, but practical barriers such as accessibility, cost, and protocol standardisation remain.
- Understand the logistical and clinical considerations for implementing biomarker testing.
- What current and emerging strategies are working for prevention, diagnosis, and staging in primary care.

Chair: Dr. Elie Matar, Consultant Neurologist & Sleep Physician, **University of Sydney**
Dr Eddy Roccati, Wicking Dementia Research and Education Centre Research Fellow, **University of Tasmania**
Dr. Kaarin Anstey, Senior Principal Research Scientist, **NEURA**
Dr. Nicola Lautenschlage, Deputy Dean, People, Community & Partnerships, **University of Melbourne**

2:40 Healthy Living for Healthy Brain Ageing

- Examine the role of chronic stress and disruptions in the gut microbiome as contributing factors in dementia, opening new avenues for prevention and intervention strategies.
- Appreciate how stress and mitochondrial dysfunction impact neurodegeneration and tau pathology
- Learn practical strategies for implementing lifestyle and dietary interventions to potentially prevent or slow cognitive decline in individuals at risk.

Dr. Helen Macpherson, Senior Research Fellow School of Exercise and Nutrition Sciences, **Deakin University**

3:15 Afternoon Tea

3:45 Exercise and Gendered Differences in Biomarkers and Pathophysiology

- Disproportionate affliction of Alzheimer's in women, highlighting differences observed in biomarker profiles and disease progression. However, risk factors for Dementia with Lewy bodies still strongest with men
- How to identify differences and communicate therapeutic approaches ensuring that both men and women receive effective and personalized care for Dementia and its sub-types.

4:15 Managing the Emotional Landscape of BPSD and Tackling Overmedication

- Delve into evidence-based, non-pharmacological interventions, such as cognitive training and mindfulness, and their demonstrated impact on improving mood, self-esteem, and social engagement
- Review the critical role of early and comprehensive neuropsychological assessment in developing effective management strategies that can enhance the quality of life for both the individual with dementia and their caregivers

Professor Mathew Summers, Discipline Lead, Psychology, **The University of the Sunshine Coast**

4:45 Acknowledgements and Closing Statements

5:00 Networking Drinks

DAY TWO | WEDNESDAY, 12 NOVEMBER 2025

- 8:20Registration
- 8:45Welcome to Country
- 9:00Opening Address and Introduction
Chairperson: **Dr. Elie Matar**, Consultant Neurologist & Sleep Physician, **University of Sydney**

INTEGRATING THERAPIES, TECHNOLOGY, AND COMPLEX NEUROPATHOLOGIES

- 9:10**Fireside Chat: Assessing the Promise and Practicality of Donanemab & Disease-Modifying Dementia Therapies in Australia**
 - Disease-modifying therapies such as Donanemab offer new options for slowing Alzheimer’s progression, but their use requires significant changes to clinical infrastructure and workforce capability in Australia.
 - Gain clarity on the real-world effectiveness and limitations of Donanemab.
 - Identify practical steps for preparing clinical settings for the integration of new dementia therapies.**A/Prof Raymond Schwartz**, Neurologist, **Southern Neurology**
Dr. Paul Yates, Clinical Associate Professor, **University of Melbourne**
- 10:00**Complex neuropathology of aging: co-pathologies and their clinical implications.**
 - Explore recent advances in our understanding of the complex and often overlapping neuropathologies that occur during aging. Drawing on new insights from the Sydney Brain Bank
 - This session will examine key neuropathological and cellular changes that occur during ageing, and their clinicopathological correlations.**Dr. Claire Shepherd**, Director, **Sydney Brain Bank**
- 10:30Morning Tea & Coffee
- 11:00**AI & Data Analytics in Dementia**
 - Explore how predictive analytics and artificial intelligence (AI) are transforming dementia care, enabling earlier detection and more personalised treatment through the analysis of clinical and imaging data.
 - How AI tools are already being used to forecast dementia progression and tailor interventions to individual patient needs, enhancing care outcomes.
 - Learn how the integration of imaging data with AI is improving early identification of cognitive decline, allowing for proactive interventions and better management strategies.**Benjamin Goudey**, Technical Lead, **Australia Biocommons**
- 11:30**Improving the Therapeutic Potential of Digital Tools for Alzheimer’s Disease**
 - Explore how digital tools can be integrated into comprehensive care programs to continuously monitor symptoms and adjust treatment plans for individuals with Alzheimer’s disease.
 - Ethical strategies for using digital health solutions to support real-time symptom tracking, improving care coordination and outcomes for individuals with complex needs.**Wei Qi Koh**, Lecturer in Occupational Therapy, **The University of Queensland**
- 12:00**Challenges to Overcome in Prevention, Diagnosis and Management for Delirium & Dementia**
 - Delirium frequently is associated with long-term adverse outcomes, including an eightfold increased risk of subsequent dementia.
 - The best practices for spotting, stopping and treating delirium and provide guidance on common challenging clinical dilemmas**Andrew Teodorczuk**, Professor, **Faculty of Health, The University of Queensland**
- 12:30Lunch

MANAGING CLINICAL CONSIDERATIONS FROM FRAILTY TO SUPPORT PARTNERS

- 1:30**Frailty and Dementia Comorbidities in Surgical Settings**
 - Recognizing frailty in older adults is essential, as it is associated with increased vulnerability to adverse health outcomes, including cognitive decline and hospitalization.
 - Comprehensive Geriatric Assessments (CGA) enabling individualized care plans that address medical, psychological, and functional aspects
 - Addressing comorbidities through multidisciplinary teams ensures comprehensive care, optimizing treatment strategies and improving patient outcomes.**Professor Jacqueline Close AM**, Orthogeriatrics Consultant, **Prince of Wales Hospital**
- 2:00**Contemporary perspectives on assessing and supporting decision-making**
 - Identify key tools and frameworks for assessing decision-making abilities
 - Discuss ethical dilemmas, human rights and legal considerations in capacity assessments
 - Interdisciplinary approach to supporting clinicians in making informed decisions**Dr. Craig Sinclair**, Senior Research Fellow in the School of Psychology, **The University of New South Wales**
- 2:30**Review of Care Partners Support and Clinical Innovation**
 - Learn practical approaches for supporting carers, including access to education, respite, and emotional support to reduce burnout and improve outcomes for all.**Cathy Strachan**, Dementia & Palliative Care CNC, **Whiddon**
- 3:00Afternoon Tea

BLOOD, THE BRAIN & THE PATHWAYS TO UNDERSTANDING

- 3:30**Lightning Rounds: Blood, The Brain & The Pathways to Understanding**
 - The adoption of blood-based biomarkers, such as p-tau and Aβ ratios, into routine assessments is transforming AD diagnosis, enabling earlier detection and intervention.
 - Consideration of factors such as test accessibility, cost, and the need for standardized protocols are needed to ensure accurate interpretation and application.**Chair: Dr. Paul Yates**, Clinical Associate Professor, **University of Melbourne**

These short talks will catch you up to speed on all the pathological context required for best practice care for Alzheimer’s and dementia sub-types		
3:40	Round 1:	Comorbidity of cerebrovascular and Alzheimer’s disease Dr Stephanie Harrison , Associate Professor of Health Services and Epidemiology, Flinders University
4:00	Round 2:	Amyloid-beta toxicity and interactions with tau pathology Professor Ralph Martins AO , Foundation Chair in Aging and Alzheimer’s Disease, Edith Cowan University
4:20	Round 3:	Imaging-based biomarkers Dr Azadeh Feizpour , Senior Research Fellow, The Florey

- 5:05Closing Acknowledgements
- 5:10Closing of Conference

THE AUSTRALIAN DEMENTIA SUMMIT

Two Conferences. One Strategic Platform.

The Australia Dementia Summit brings together the full spectrum of dementia care through two concurrent, highly focused conferences: the Clinical Dementia Conference and the Aged Care Dementia Conference. Each stream addresses the distinct challenges and opportunities within its domain—equipping professionals with the latest in diagnosis, treatment, care models, and regulatory reform.

Held under one roof, this dual-conference format enables critical cross-sector collaboration and positions the Summit as a central meeting point for the full spectrum of leaders working with people with dementia. **Register for either conference and gain full access to the summit**

Why Attend?

Access both conferences for one price

With freedom to move between the two conferences throughout the day, you can pick the sessions and topics that are most relevant to you.

Send your full team

Bring along the full team from your organisation to the event, from directors, nurses and clinical staff can attend with discounts available for group bookings across the two events.

CPD approved

Both conferences are CPD approved for 7 points per day, meaning you can continue your learning while hearing from leading experts in the field.

WHY SPONSOR

Position your brand where it matters most—at the heart of Australia's aged care transformation. This focused summit brings together 120+ senior leaders from over 50 aged care providers; people driving clinical governance, workforce capability, and person-centred innovation.

Whether your expertise lies in digital care tools, behaviour support, staff training, compliance, or assistive technologies, this event offers a high-value platform to engage decision-makers who are ready to act.

WHO SHOULD SPONSOR?

- **Pharmaceutical research and manufacturing groups:** discuss the latest developments and future of dementia treatment
- **Quality & Compliance Consultants:** Demonstrate how your systems improve care standards and regulatory outcomes.
- **Not-for-Profits & Advocacy Groups:** Promote your programs to organisations committed to better dementia outcomes.
- **Assistive Technology & Mobility Solutions:** Show how your innovations improve safety, independence, and wellbeing for those with cognitive decline.

PRICING OPTIONS

TWO-DAY CONFERENCE	SAVE \$500 BOOK BEFORE 15 AUGUST	FULL PRICE
NON-GOVERNMENT SECTOR	\$1,499	\$1,999
GOVERNMENT SECTOR	\$1,999	\$2,499
VENDOR PASS	\$3,499	\$3,999

CLICK HERE TO REGISTER ONLINE

A discount of 15% is available to all trainees and students. Please contact us on info@aventedge.com for more information.

SEND 3 DELEGATES, SAVE \$150 PER PERSON (TOTAL \$450 OFF)

SEND 5 DELEGATES, SAVE \$200 PER PERSON (TOTAL \$1,000 OFF)

All prices are in AUD and exclude GST. Early Bird discounts are subject to availability. If you do not fall under the categories amassing Non-government the Government Sector rate applies.

VENDOR RATE: If your organisation provides a solution or service to the primary delegate market, the vendor rate applies.

SPONSORSHIP OPPORTUNITIES

To find out how we can help you meet your marketing and business development goals, contact **Charlie Wright**, Sponsorship Manager, on charlie.wright@aventedge.com

GENERAL TERMS:

- Payment terms: Payment is due within 14 days of the date of your invoice or immediately if the event will be held in less than 14 days between the invoice and date of the event.
- Payment must be received before the event date in order to allow you entry.
- All invoiced sums, including applicable taxes, are payable in full by the delegate to Aventedge.
- Payment is applicable when registration fees have been invoiced.
- Completing the online registration process or a registration form, is considered a commitment by all parties associated to the registration, for the delegate(s) to attend the event.
- Should a delegate be unable to attend the event a substitute delegate is welcome at no extra charge. However, no pass sharing at the event is allowed.
- Should a delegate be unable to attend the event and wish to cancel their invoiced registration then this will be subject to the following:
 - All requests for cancellation need to be made in writing to the relevant Aventedge office
 - Cancellations 15 days or more before the event: a credit voucher valid for 12 months will be issued less a \$250 + GST administration fee will be charged per delegate
 - Within 14 days before the event: no credit notes permitted
 - Registrations can be transferred to a colleague from the same company before the event without incurring a fee
- The event pass is valid for the designated person only. Pass sharing is not permitted.
- Aventedge will make its best endeavours to run the event per the published programme but reserves the right to alter the programme without notice including the substitution, alteration or cancellation of speakers, topics or the alteration of the dates of the event.
- Aventedge is not responsible for any loss or damage as a result of a substitution, alteration, postponement or cancellation of an event.
- All **Intellectual Property** rights in all materials produced or distributed by Aventedge in connection with this event is expressly reserved and any unauthorised duplication, publication or distribution is prohibited.
- Client information** is kept on our database and used to assist in providing selected products and services which may be of interest to the Client and which will be communicated by letter, phone, fax, email or other electronic means.
- Important note:** While every reasonable effort will be made to adhere to the advertised package, we reserve the right to change event dates, sites or location or omit event features, or merge the event with another event, as deemed necessary without penalty and in such situations no refunds, part refunds or alternative offers shall be made. In the event that we permanently cancel an event for any reason whatsoever, (including, but not limited to any force majeure occurrence) and provided that the event is not postponed to a later date nor is merged with another event, the Client shall receive a credit note for the amount that the Client has paid to such permanently cancelled event, valid for up to one year to be used at another Aventedge event. No refunds, part refunds or alternative offers shall be made.
- Governing Law:** This Agreement shall be governed and construed in accordance with the laws of the country this event is being held, and the parties submit to the exclusive jurisdiction of the Courts in that country. However, Aventedge only is entitled to waive this right and submit to the jurisdiction of the courts in which the Client's office is located.
- If you need to contact us for any reason concerning your registration, please email us at billing@aventedge.com
- If, for any reason, Aventedge decides to cancel or postpone this conference, Aventedge is not responsible for covering consequential costs (airfare, hotel, or other travel costs) incurred by clients.
- Completing and returning this Registration Form to us implies acceptance of the above Terms & Conditions.
- Occasionally your details may be obtained from, or made available to, external companies who wish to communicate with you offers related to your business activities.
